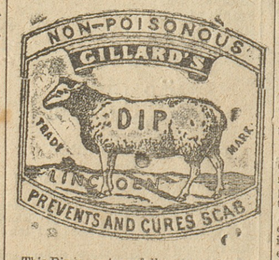
GILLARD'S SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

Berlin 25th.

The Emperor still unwell, H. M. is not worse, but some anxiety is felt.

Lisbon 26th.

Ruiz Zorilla in reply to a political deputation, has again expressed his Republican convictions, and cannot approve of any other Government in Spain.

Paris 26.

Telegrams from St. Petersburg announce another attempt to assasinate Major General Tcherevin, Aide de Camp to the Czar, and Chief of police 'pro tem.' The assassin fired a revolver at him, but missed and was arrested. Motive not known.

Berlin, 27th

Emperor better. Danger over.

THE HUNDRED MILLION LOAN.

The greatest weight on the credit of this country is this hundred million loan measure which comes so inopportunely that, whilst some of the first bankers in London are 'posed' to launch a new 6 per cent R. Plate loan, with the Provincial Bank security, our Senators are voting the compulsory reduction of our loans to a 5 per cent basis.

The saving to the country in an insterest point of view will not equalize the loss to our credit which the measure must inevitably entail, and we are entirely of accord with the minority in the Senate, who, aware of the great dangers of this most arbitrary bill, asked the House, if not to totally reject, at least to postpone it.

As the bill has to pass yet through many stages, it may be well to remind our legislators that although nothing can be more desirable than an equalization of our loans, still care must be taken that the rights of bondholders are not infringed on by Congress. The bondholders have always an appellate jurisdiction, in the London Stock Exchange, infinitely more powerful than the Argentine Congress, and when this measure was just mooted telegrams came out from London which were shown both to the President and to Dr Romero, Finance Minister, which distinctly stated that the holders of Argentine stocks in England would not consent to any alteration of the bond or loan contract or law creating the obligation, and if Congress attempted to trench on their rights a protest to the stock exchange would be made which would exclude from official quotation the new issue proposed by this 100 million measure.

Since the first mooting of this bill, the London money market has undergone great change, and although Argentine Treasury Bills are still at 18 per cent premium there, they have already dropped 10 per cent; and if money market affairs in London do not improve, it is probable that these Treasury Bills will soon be down to par, or under, which will be the proper time for the Government to step in and either buy the stock up in the open market, or propose to the holders terms which it will be their interest to accept.

In view, therefore, of the great advantages that may be secured by a little delay in a measure of such transcendent importance to our credit and our friends abroad, we would suggest that the Deputies postpone the bill until next year. There is really no urgency called for at the moment, since the Government will be compelled, even though Congress pass the bill, to stand on the business until it negotiates its bonds to pay off the Provincial Bank, its new Treasury Bills to pay off the claims of the late war, and its new City Improvement Bonds, which must necessarily be negotiated before the works are resumed.

In presence of all these new bonds, loans, and issues, Congress may well afford to say 'basta' for this year in the way of all further loans, and leave to the next year this great measure, which under other circumstances and at other opportunities would enlist our fullest support and approval.

CANDELARIA RAILWAY.

Before closing its sessions, the Santa Fe Legislature sanctioned the following railway bill; the new line will run through the interior of the province and open up a vast tract of land to industry and commerce. The following is the tenor of the law:—

Santa Fe, Oct. 17, 1881.

Whereas the Senate and Deputies sanction with force of law:—

Art. 1. The Executive is authorized to make a contract with Du Carlos Casado, or with his legal representative, for the construction and perpetual working of a railway to be called the Oeste Santa Fecino: the line to be single, the rails steel, the materials first-class and to comprise all necessary shunting and accessory lines. The gauge shall be fixed by the contractor, with the approval of the Government.

Art. 2. The company shall reside in Rosario, and must present for the approval of the Government its statutes and plans within the term of twelve months from the date of promulgation of the law.

Art. 3. The railway shall start from Rosario, if possible from the bank of the river or one of the stations of the Central Argentine Railway, and shall have its terminus for the present in the neighbourhood of the Candelaria colony. A branch line must be constructed to the wheat deposits and mole of Rosario, the plans of which must be submitted to the Government.

Art. 4. After agreement between the contracting parties this section shall be extended westward to the Iriondo colony and southward to Melincue, with a right to advance to the province of Buenos Ayres by the most convenient route: this line shall enjoy the same rights and privileges and exemptions as the present one.

Art. 5. The company may construct a wharf, for unloading and loading, of the necessary dimensions, and in the spot deemed most convenient on the river.

Art. 6. All the private and fiscal lands necessary for the road, stations, wharf, coal deposits, offices, &c., shall be ceded to the company which may claim possession of same when needed: the Government is under obligation of expropriating same and removing all protests,

Art. 7. The works shall begin within two months of the concession of the lands in Art 6, and shall be terminated 36 months after.

Should new companies offer to contract the other sections, the contracting one at present shall be informed of same by the Executive, and a term for reply allowed: and, in case of acceptance of the construction of same, the present terms of this law shall be granted.

Art. 8. All the street openings and roads are free and liable to be crossed by the railroad, and the company must, at its own expense, construct the necessary ducts for carrying off the waters.

Art. 9. The company shall enjoy the right to construct other branch lines, starting from the main railroad, but the plans and surveys of same must be submitted to the Government, and no guarantee can be expected on the capital employed.

Art. 10. The Government shall have the right to buy up the railway, paying its recognized cost and 20 per cent. on its value as indemnity.

Art. 11. Stations shall be built in places fixed in agreement with the Government, bearing in mind the increase of the agricultural population, in order to facilitate neighbouring communications. Each station shall cover a square of 1,000 yards lateral length; the expropriation of these lands to be settled by the company, with the exception of those in Rosario, occupying two square 'cuadras': all towns founded at these stations shall be exempted from taxes during ten years, to begin from the date these stations are opened to public service.

Art. 12 The Government will petition the National Government to admit, free of duty, all the materials, machinery etc. which it may be necessary to import for the construction and exclusive use of the railway

TUDOR, equal in quality and flavour to Teas sold at 30 m|c and 40 m|c lb. Parties who have once tried it take no other. SOLD EVERYWHERE.

and its dependencies, during a term of 20 years.

Art. 13. The railway and its dependencies shall be exempt from payment of any taxes whatever for 15 years.

Art. 14. The Government will also ask the National Government to exempt from military service all those employed in the construction and working of the line; and these persons are hereby exempted from any urban service the province may require of them.

Art. 15. The Government will allow the Railway Company to use the running waters free of all charge.

Art. 16 The Company will carry the National and Provincial mails free; but the trains shall in no case be detained beyond the time fixed for their departure.

Art. 17 The Government grants the Company every facility and protection for the introduction of immigrants, and all the advantages conferred by the existing laws or those which may hereafter be framed in favour of immigration, always provided that the immigrants settle in the colonies.

Art. 18 The Government of the province grants to the Company 150 leagues of public lands the titles to which shall be delivered as follows: 50 when the section to Candelaria Colony is finished; 50 when the line is opened to Iriondo, and 50 when the 3rd section, to Melincue, is completed. The Government and the Company will select the lands to be ceded. This concession is given on the condition of founding, on the lands, or in some other part of the province, one or more settlements of 150 foreign families, each of three persons at the least, it being understood that the number 150 shall not be reduced, even if only the first section be made.

Art. 19 The Government of the province will ask the Nat. Government to guarantee 7 per cent on a fixed cost of 10,000 pats per kilometre of narrow gauge, paying annually the difference between this interest and the net receipts of the line, whenever they may be less than said interest, on the understanding that, whenever the receipts of the line shall exceed 7 per cent, the Government shall be repaid the advances made. Should the National Government refuse the guarantee, the Government of the province will give it on the working of the first 50 kilometres, on the terms referred to.

Art. 20. The guarantee of 7 per cent. shall commence to run according as the stations on the 1st section are opened to traffic.

Art. 21. The guarantee shall remain in force for 20 years from the date of its commencement, after which all responsibility of Government shall cease.

Art. 22. The Government will not allow another parallel line to be made for a distance of six leagues on either side of the railway during twenty years counted from the completion of the 1st section; but the company binds itself to carry the goods and passengers of other companies whose lines touch its termini. The fares and freight shall be at the mean average of the respective tariffs.

Art. 23. Government shall have a voice in the tariff and management of the railway while the guarantee remains in force.

Art. 24. When the contract is signed by Government, as also the statutes and plans referred to in article 2, the company shall give the Executive satisfactory security for 10,000 patacons, to guarantee that it will fulfill its obligations under this law, and this guarantee shall expire when an equal amount shall be invested in the works.

Art. 25 All questions shall be left to the decision of arbitrators chosen by the Government and the Company.

Art. 26. Let this be communicated.

LATEST FROM MENDOZA.

(*From our Own Correspondent*)

November 18th, 1881.

I was in hopes that my two days' correspondence would take you some more or less reliable statistical information as to the quantity of wheat likely to be harvested in the province this season, but I find that the required information is much more difficult to obtain than what I had bargained for. The ignorance and utter want of appreciation of outside influences amongst the general run of our farmers is such that they at once fear a trap is being laid for them if they are requested to give any details regarding this condition and prospects of their crops; moreover, they are as likely as not to state the exact reverse of the truth, if they judge that by so doing their interests may in any way be favourably affected. The want is felt most sadly of a more liberal and enterprising spirit amongst our agricultural classes, which would prove of inestimable benefit and add greatly to the advancement of these provinces. However, in order that we may witness the introduction of any improvements tending in this direction, we must wait until we are awakened from our lethargy by the snorting of the iron horse, which will, no doubt, bring with it, and diffuse amongst us, those elements of which we stand so much in need. One conviction, in reference to the coming crops, seems to have come home fully to all parties concerned, and that is, that the quantity to be harvested will fall far short of what was originally anticipated, though probably still considerably in excess of that of 1880. The causes of this falling off are palpable to all and admit of no denial. In the first place, during the latter half of October, and also during the first week of the present month, the night frosts were continuous and heavy. This severe weather, so late in the season, would hardly by itself have seriously damaged the wheat crop, but we were, in the second place, at the same period, visited by a succession of strong dry winds, to which we are in the season some years so much subject, blowing, now as hot as a 'sirocco' and now again icy cold. This scourge eventually culminated on the 5th inst. in a perfect hurricane, which, though of short duration, did an incalculable amount of mischief, and, of course, also amongst the wheat, destroying a large proportion of the crops of fruit of all classes and rooting up many large trees which had withstood the tempests of former years. Now, in addition to these serious disasters, we are already being invaded by the locusts. On the 15th inst. immense crowds of them passed over the city and neigbourhood, but fortunately did not for the present settle down, being carried on in a south-westerly direction by a strong breeze then blowing. The relief can, however, but be momentary, and this locust-plague having put in an appearance at this almost unprecedentedly early season, it is utterly hopeless to expect that we shall escape the devastation consequent on a visit of this dire enemy to agricultural interests. The wheat fields must necessarily suffer along with the rest, and as absolutely no steps are taken towards remedying the evil, though all the world is convinced that much might be done, there is no predicting what may be the actual amount of mischief produced.

Is it not wonderful that on the comparatively confined space under irrigation in Mendoza and its neighbourhood, the energetic spirit required to act with some sort of combination, as against the common enemy, cannot by any means be called into life? The petty, envious, egotistical spirit rules the day. Every one for himself, and every one expects to be the party to escape the infliction. Nothing being done the consequence is obvious, and we may look forward to see a great portion of this season's crop lost, in a great measure through indifference.

It will not be surprising to those readers of the *Standard* who are acquainted with what Mendoza really is, if they find the wine question much harped upon in this correspondence. Some remarks formerly made have been a good deal commented upon here, but I find that the result most sensible people have arrived at is, that the statements made last August are not of an exaggerated nature, and that, far from proving injurious to the interests of the 'bodigueros,' they are thereby likely to be stimulated to pay more attention than hitherto to the manufacture of pure and wholesome wines. If any proof were wanting to show the correctness of the assertion made last August, it is to be found in the fact that at this moment not a bottle of drinkable wine is to be found in any almacen in the town; and even the 'depositos' and 'bodegas,' which retail the article at unusually high rates, are just now supplying their customers with what it is a perfect sarcasm to call wine. This statement can challenge denial. No one can safely assert that a bottle of drinkable wine is obtainable at the usual price of 1|rl. currency, and even at 2 rls. no such thing is to be had. This will, however, not prevent the good people of Buenos Aires and of some other towns from enjoying a decent Mendoza wine, and probably at reasonable rates, too, for the simpli reason that the majority of our bodigueros' have concluded to compete with their Sanjuanino neighbours for the favours of wine consumers with you, and consequently prefer to send all their stock of really matured wines out of the province, sorting out for consumption of the inhabitants of this town the inferior 'caldos,' which, as already mentioned, form a considerable proportion of last year's vintage. It is much to be feared that the product of this year will not even equal that of the last.

The military element is just now strongly represented here, the number of 'comandantes,' 'majores' and 'capitanes' is something quite unusual, the more so seeing that the number of troops at present in the city is comparatively insignificant, and it leads to the supposition that a great majority of the superior officers from the line of frontier must be here on leave.

Amongst the latest arrivals may be mentioned that of Major Torres, an officer of well deserved renown for the energy which he has displayed on all occasions when called upon to resist and punish Indian invasions. It is understood that Colonel Ortega, all his officers and a company or two of men recruited here are to leave on the 25th inst. in order to act in combination with General Villegas on the projected extension towards the south of the military frontier. Supposing there is no very great exaggeration contained in the telegrams from Chile lately published here, it is evidently high time that the large military element idling about returned to its duties on the frontier; if the Chilian frontier is being devastated by 5000 armed Indians, as asserted, it is clear that Government will have to adopt very decided measures to repel and punish these hordes of savages, and the result will most probably be that a considerable portion of said savages will pass on to Argentine territory, the extended frontier of which can hardly under such circumstances be said to be properly guarded by a thousand and odd men, of which it is well known that a body of say 100 men can only with very great difficulty be collected at short notice on a given spot; that is to say always excepting the head quarters of Colonel Ortega, the point which is least likely to be selected by the Indians for any attack.

Some sinister reports have been put into circulation here regarding the progress of the works on our Railway; it is said that a not inconsiderable number of the peones engaged here and in San Juan are returning to their homesteads on foot, more or less begging their way on the road, and they are reported to assert that the amount of work apportioned to each peon as a day's labour cannot be performed under two days, and maintenance being costly, they find that at the conclusion of the week their earnings are more or less absorbed by cost of living; that a certain number of men have returned is undeniable and also that the contractors' exactions are unsuitably heavy; at the same time it must be borne in mind that the approach of the harvesting period greatly influences many individuals, who prefer working in the vicinity of their homes to undergoing hard labour at a distance, more so just now that hands are acknowledged to be scarce and consequently in great demand.

The examinations at the public schools have commenced and at the escuela Sarmiento, said to be the best of its kind, they conclude this evening; the system adopted seems to be a very slip-shod one, and judging by the results obtained does not lead to much; however, much cannot be expected from the Señores preceptores, seeing that they all have their salaries 3 months in arrears, having just had 500$ distributed amongst them, equal to say about 5$ a head!

It is to be regretted that the whole tenor of this correspondence on the present ocasion should be on all points rather faultfinding than otherwise, but circumstances have combined to make it so, and it only remains to be hoped that you may soon receive a collection of items of a more gratifying nature from your own Correspondent.

EDITOR'S TABLE.

The Congo and the Sud America bring lots of news to suit all tastes, from Communist to Conservative. The very latest date is Lisbon 9th. Here goes for a 'precis':—Rumours of dissolving the new German Reichstag, as the Progressists and Catholics are too strong for Bismarck's party. Archbishops of Vienna, Cologne and Algiers are to receive the red hat. Communists getting bolder every day in Paris; Louise Michel calls Gambetta and his Ministers robbers and murderers! French Ambassador in Rome assured by Italian F.O. that King Humbert's visit to Vienna means nothing in particular: nevertheless the Italian army is to be increased and the defence works pushed on. King of Spain going to London and Vienna. Emperor Francis Joe will return King Hum's visit in Spring. France pays 4 millions francs to Spain for Iberians killed or damaged at Saida. Agitation in Ireland worse than ever, and more troops and police sent from England, while the squadron at Gibraltar has been ordered to the Irish coast. Emperor of Brazil, King of Spain and Prince of Wales all expected at opening of Lisbon Exhibition. Hector Varela has again shaken Spain to its foundations by a sublime speech about Christopher Columbus, at a 'velada literaria.' (None of the Brander family were present.)

The *Patria Italiana* was in the field yesterday with a bulletin about the stupendous reception given to King Humbert and the beautiful Queen Margaret at Vienna. 150,000 people were in the streets and cheered like mad. The station was lighted by electricity. The Emperor of Austria wore the uniform of a Field-Marshal, with the grand Cordon of the Annunciata. The King wore a General's uniform and the grand cross of St. Stephen. The Emperor first embraced the King and then, bowing low, kissed Queen Margaret's hands. The whole party then drove to the Palace. Next day there was a review, a concert and a ball. The Empress gave Queen Margaret a costly cross of brilliants. King Humbert gave 11,000 francs to the poor of Vienna. The Royal visitors returned to Milan on 31st.

The Municipality have granted permission to Messrs F. Mulhall and Company to at once lay down their wooden pavement in the streets round Plaza Once de Setiembre. Great things are expected from this wooden pavement, which is an improvement on that laid down in Rio 30 years ago, and which is still as good as new.

We had a letter yesterday from 'Vivat Regina,' Chascomus, but cannot publish it in full, being squeezed for space. We therefore condense it as follows:—

Dear *Standard*.

Click of shearing over in Quartel 9; wool in excellent condition, but very light. Camps were inundated during late rains. The worthy Scotch pastor, the Rev. M. P. Ferguson, was upset in the Arroyo Grande some Sundays since, but fortunately escaped with the ducking, and, having procured a change of clothes from a neighbouring Biscayan, continued his journey to the partido of Nueva Fortuna, where he held service next day at Mr Harrison's estancia.

We have received (somewhat late in the day) the report of the cricket match played at Palermo on the 11th inst. by the Lomas and B.A. Clubs, and will try to find space for it to-morrow or next day, although the reporter, with commendable frankness, says 'the batting and fielding of both sides was anything but what it should have been.' This being so, it might have been as well not to report on it at all, but the psychological idiosyncracies of cricketers are hard to comprehend.

The shopkeepers' assistants had a meeting on Sunday at the Goldoni Theatre, about that ineffably stale topic Sunday closing. It was wretchedly attended, and the President read a phenomenal 'discurso' to empty benches. The public are sick of this subject. There is as much Sunday Closing now as is likely to be decreed for some time to come, and the best thing the 'dependientes' and 'comerciantes' can do is to 'shut up,' literally and metaphorically, and go to the country on Sundays to enjoy themselves, instead of spouting speeches in town.

Sunday was a heavy, hazy day and anything but pleasant or enjoyable till about 9½ p.m., when down came the reinvigorating rain, and everybody slept well. It rained in the camp also, and the wild freshness of yesterday morning was a treat. There was no wind—fortunately for the Exhibiton building. The architect, we see, is again tempting Eolas by putting the roof on some of the frame-work before the bottom is finished. He must be a Bourbonist.

The registration of voters on the National register concluded on Sunday. An immense number of the free and enlightened were enrolled, and there was not even the semblance of a row.

The big cannon at the Circus went off accidentally on Saturday night and nearly blew an arm off one of the servants; another had his head right in front of the muzzle half a second before the charge exploded. A rather narrow shave.

Two more suicides reported yesterday—one in the Men's Hospital, where a patient cut his throat with a razor, the other in the Cemetery at Flores, where a young fellow blew his brains out on the grave of his betrothed, who died a few days before.

Grand news. In January they expect to hear the whistle of the locomotive in the city of San Luis.

Colonel Villar, Chief of the second line of Southern frontier, has telegraphed from Carhue, that he has had a despatch from Colonel Winter stating that a few Indians have stolen some mares on the Colorado and that he has sent some men after them. Colonel Villar has also ordered troops from Traru-Lauquen and from Puan to cut off the retreat of the savages. Some 15 Indians showed near Bahia Blanca, and Commander Farias has been ordered to pursue them. So far for the news. Whenever these Indian raids occur, which is disagreeably often, there is a deal heard about 'orders to pursue', but they all end in moonshine, at least nine times in ten.

The presentation to Gen. Osborne at the United States Legation on Saturday night was a very impressive affair. The United States flag used in the demonstration to President Garfield's memory was presented in a beautiful case to the General by General Meyer, the President of the deputation, and he made a short but eloquent speech in reply, referring gracefully to the way in which the Government and people of the United States would appreciate the demonstration of sympathy for their deceased ruler; he said that the laws of his country would not allow him to accept the flag, but he thanked them all the same.

Whoever wants gorgeous furniture should attend the auction today by Baltar and Quesada, of that of the ex-Spanish Minister, Sr. Otin: It has never been used.

The Lord Mayor was unable to attend at the Municipality yesterday, owing to a slight indisposition.

Nov. 28th

Patacons	25.05
Ocdulas A	98½
National Bank Shares	105½
Old Gas Co. Shares	1,750$

The National Bank Share market has opened for the week rather firmer and prices advanced somewhat until a well known broker began to sell heavily which at once weakened prices. The position of the market since Saturday has only undergone the change which a few German brokers buying for the houses could effect. In other respects the market is the same; the great men in the stock persist in doing nothing; those who have sold so heavily 'en descubierta' do not buy back, neither do those who have purchased at high rates attempt to sell; both sides hang back for the final day, Wednesday, when both accounts must be cleared off; meanwhile the impression is that some of the heavy men will cave in, since the differences to be met are simply enormous. It is quite evident that the speculation in these shares this month has been much heavier than the market can bear, and there is not amongst these speculative brokers sufficient money to pay such enormous differences. In December we shall probably have less speculation and a firmer market. The shares are gradually getting into the hands of the public, which is a great gain, as it is always an inconvenience to have a Syndicate with 40,000 shares the sole and absolute master of the market.

Gold is much offered, and what with the very large amount of exchange passed on Saturday and immense wool sales this morning in the barracas, the demand for paper money has so increased that the wool cannot be paid for without recurrence to the Oficina de Cambios, which is what we predicted a month ago. For the end of the month 107,000 sold, opening at 25.10, and closing at 25.05. We believe, however, that the sale of 87,000 for end of month was not done at 25.05 but at 25.07½, but such quotation is not allowed.

Cedulas rule very stale, one sale, 25,000, at 98¾. They say that this week the Government project will be reported favorably on by the Committee and come up before the house. The passage of this Government measure it is thought will at once put Series A to par.

National Bank Shares opened at 105½ cash, only 200 sold. There was a rumour before the ring opened that several thousand shares would be thrown on the market for cash, but it proved incorrect; cash shares are much scarcer than many imagine. For the end of month 6,350 shares sold, opening at 105½, running up to 107, and shutting at 106. For December 250 shares sold, opening at 105¾ and closing at 107½.

Old Gas Shares one sale, 50 shares, at 1,750; brokers report the stock firm at this rate.

The arrival of the Congo and Britannia was announced, the Congo came up and the mails delivered in the afternoon. The Britannia's mails will be up in the morning.

There was a splendid stir in the wool market this morning caused by the news of a rise of 5 to 6 o|o at the London auction. We hear that nearly all the wool in the various barracas was sold this morning; the buyers made a clean sweep of everything; and exchange advanced ¼. It seems that some of the houses had the good news about wool on Saturday.

The resale of 40 square leagues of National land at Tecquiquen is reported at $10,000 per league. These lands were purchased recently by means of officers' boletos bought up and then 'ubicado'. The business leaves a fine profit.

We publish in our leading columns Sr Casado's new concession for a railway and commend it to the notice of all those who bought lands at Melincue, Venado Tuerto, and Lincoln. This new line will bisect all those fine lands and connect them with Rosario.

An English party for the Misiones will leave in a few days. More sugar mills we suppose.

The sales at the ring were—

For Nov. 30th 107,000 25.10-05
For Dec. 31st 20,000 25.10

The Bolsa opened this morning under the impress of good news from London about wool, which was hardly expected, as the quantity of wool to be offered at auction was large; but evidently wool has touched bottom in Europe, and we see in the New York papers at hand that wool is woolin the U. States, all the mills are working, and business never ruled brisker. A little sunshine in our wool market now would be an immense help to the country, and reduce the fears of many about our Oficina de Cambios. The news from Santa Fe is most favorable, and spite of all the checks and dangers the crops of wheat and lino this year will be much larger than any previous year.

Telegrams from Liverpool to-day announced the suspension of a well known English firm with branch houses in Rio and B. Aires; one of the oldest and most popular houses in the trade, and the market here expresses great sympathy with the gentlemen connected with the concern.

On Saturday the National Government sent orders to Choel Choel and to Puan to concentrate forces on the Colorado, and a strong force has been posted now at the Paso Alsina, which was the point where the Indians invaded and swept off 600 mares, belonging to the proveduria. We received telegrams from the Colorado to-day of the most satisfactory character.

The engineers have begun already to mark out the line of Southern Railway to Bahia Blanca, beginning at Azul and cutting through the chacras.

Exchange rules very upward, and some bankers on the Bolsa to-day talked of 50¼.

The sale of ½ league of land in Loberia for 315,000 is reported.

The Prov. Bank has received from the Mint 150,000 pats in new gold coin, Argentines, coined in the mint, and a like amount in the new silver coin; the Bank will begin to-morrow to pay out in these new coins.

The Bank discounted to-day 6 millions, and we hear took a very large amount of French exchange on Saturday afternoon in paper.

Owing to the gale all day there was no landing the passengers, but the arrivals to-day are magnificent

Per Congo..... 600

They will all come into the Boca to-morrow.

A small estancia in Ensenada, 103 squares, sold yesterday for 2?6,800 m|c. The valuation was only 185,000 m|c.

The Ville de Rosario, Mr Christophersen's pioneer ship, took in at Rosario the following cargo—

1300 dry hides
200 bales wool
10 do hair
150 do sheepskins
14 sacks mineral
24 cases gold and silver ingots
212 bags beans
17 do flour

The Salier will be up in the morning; she brings 240 passengers and 1450 tons cargo.

Gold was paid into the oficina de Cambio to-day at par for paper, and also at the Treasury of the Bank.

The sale of a cargo of Montreal pine to arrive, at 9½ in lighter, is reported.

The splendid Allan steamer Buenos Ayrean sailed on 22 November from Havre, and is due here about 14 December.

Although yesterday was Sunday, we hear there was an immense wool business done in the barracas yesterday morning by a few who had the news; all the new wool bought by barraqueros is sold, and all the stock of old wool nearly cleared off; fully 3000 bales.

At afterhours there was a dead lock in the share market until the Italian ring bought 2,000 shares for the end of month at 106½ and then flattened the market by selling 800 shares at 105½. The king stood on this, but another Milanese friend sold in one lot 1,000 shares for end of December at 107½, and these few sales put a little more life into things.

Gold at afterhours was done at 25.05 for the end of month.

At 5 o'clock as the Italians were hurrying to their "polenta" the rumour spread like wildfire that Congress had passed the 450,000 pats Indemnity Bill to the Bank, equal to say 6½ o|o bonus on the shares Everyone then turned round to buy, and some looked to the glass roof.

To-day killing began at the Liebig factory, Fray Bentos; we hear there is gold on the way out coming to the fabric.

In Montevideo the following list is made out of salted hides off ring for sale;—

In Montevideo—

D. Pedro Piñeirua	5,000
Petit Serè	4,000
Herrera y Obes y Cia	10,000
In Uruguay—	
Guaviyu	10,000
Libaros	10,000
Sacra	10,000
Total	49,000

The Congo has engaged in Montevideo 4000 cases preserved meat and 3000 dry hides, and Ville de Rosario has engaged there 200 bales at 35 francs.

The Thebes, one of Mr Scharffenorth's steamers, has recently landed in Europa a cargo of cannibals from that part of the Argentine Republic called Tierra del Fuego. Perhaps for the credit of the R. Plate it would have been preferable to have sent to Europe some Patagonian sheep or San Blas whiskey, and we do hope that both Mr Scharffenorth & Mr Sattler will instruct the Captains of their Cosmos line to pick up no more such passengers. The following particulars of this remarkable affair we find in a paper received by the mail:—

"Captain G. Schwaers, of the Hamburg steamship Thebes, one of the Cosmos line, arrived in Hamburg from the Western Coast of South America, has brought with him a strange human cargo. During his passage through the Magellan Straits he obtained eleven Fuegelanders—four men, four women, and three children—veritable Cannibals. Some difficulties had to be overcome before he could persuade them to undertake a voyage to Europe, and the problem as to their food on the passage was also the cause of a good deal of anxiety, as it was impossible to lay in a stock of some kindred tribes for their sustenance. The Captain reports that he was highly satisfied with their behavior as passengers. At first he laid ordinary cooked meat before them, but the whole company sickened; hereupon they were provided with raw flesh, and they recovered their normal state of health. They were offered tallow candles, at first in fun, but they regarded this sort of food as a very choice European delicacy, and the women invariably made their children partake of it. All the members of this curious company showed a remarkable capacity for learning and acquired a number of German and Spanish words and sentences with facility, and employed them to good purpose. The visitors are to be sent to Paris first, where they will be exhibited—or will exhibit themselves we should, perhaps, rather say—to their civilised brethren in the Jardin d'Acclimatation. They are next to be forwarded to Hamburg and after a short stay in that city they will make the tour of the great cities of Europe."

The French steamer bounty experiment is causing great attention at present in Europe: "It will be instructive to watch this experiment to build up a great commercial marine through the dubious process of Government bounties. "Ships, colonies and commerce", it will be remembered, were the dream of Napoleon, and though political and civil imperialism is at this moment about as dead as it can well be in France, that dream has somehow survived and come down to the Republic. It would be a perfectly laudable ambition, were it based upon sound economic principles and the recognition of equal and exact justice as between different classes of the people. As the case stand, however, the Government simply undertakes to foster one industry at the expense of another. It proposes to extend its commercial marine by compelling the taxpayers to pay a premium on ship building, at the same time that, under existing economic conditions, Frenchmen can procure all the vessels which the commercial requirements of the country demand at prices much lower than they can be constructed at home. For that matter, bounty, *per se*, impliés inability to compete. In order to "protect home industry", and to encourage French maritime enterprise, an extra tax has been imposed upon the country at large. Before the system is fairly under way, it is just possible that, like their German neighbors, who are likewise entering upon a similar experiment, Frenchmen will begin to realize what a good many other people have discovered, that "protection does not protect". The Germans have been obliged to import mechanics and artisans from the Clyde yards to enable them to build German ships on the Elbe and the Oder. How is that "protecting" native industry? Is it not rather compelling the German taxpayer to provide profitable employment for foreign workmen and foreign industries?

"The construction of huge ocean steamers is being pushed forward with feverish haste at La Seyne, Havre, Marseilles, &c. Among the enterprises which have been recently undertaken are the following:—

1st—A line to trade from Havre to the Southern seas. Five steamers are already running. The objective point here is doubtless a portion of the Cochin China and Chinese trade. Efforts are also making to develop Tonquin, and to attract trade from Yumran and the far Western provinces of China.

2nd—The Compagnie Française de Transports a Vapeur has under contract a fleet of seven steamers of 3,200 tons each, the first of which will be launched in January next. It does not appear as yet what trade this fleet is to be engaged in. It is a pretty large enterprise, however, and must be backed by corresponding great expectations.

3rd—A line to ply between Havre, Canada and Brazil, to be composed of seven steamers. The route will be, during the summer months: Havre, Quebec, Montreal, Halifax, St Thomas, Para, Maragnan, Pernambuco, Bahia and Rio Janeiro. It must be acknowledged that this is a rather round-about way to reach Brazil. If steamship freight can afford long circuitous voyages like this, there would seem to be no particular inducement to abandon the smart sailing clipper. The Canadian and Brazil Governments, however, are to grant subsidies to this line, and these, with the high French bounty, are expected to pay the owners, freight or no freight."

Venderemos al mas alto precio, y dinero de contado y sin retirar lote, por cuenta de su propietario el inteligente cabañero Don Benjamin Nazar.

26 notabilisimos carneros, bien elegidos en el gran Establecimiento 'Nuestra Señora del Pilar'.

Todos ellos han sido esquilados a la raiz, teniendo hoy lana de 11 y 12 meses, debiendo llamar la atencion de los señores hacendados por su finura y buen rizo, como por lo inmenso de su tamaño y tipo caracterizado.

Es muy difícil hallar carneros de vellon mas largo y cubierto.

Estos notables animales, pueden verse en nuestra casa cinco dias antes del remate, y el catalogo detallado esta a la disposicion del publico.

NOTA—Prevenimos que los carneros que venderemos este dia son los que estaban depositados para venta particular en la casa del malogrado Sr Don Benito Nazar, que como nadie ignora, era el encargado todos los años de vender algunos carneros particularmente de los mejores del establecimiento, a todas aquellas personas que no habian podido asistir a los remates o no habian podido surtirse.

Son pues esos carneros los que nosotros venderemos y en razon de haber fallecido el Sr D. Benito Nazar.

Edificio elegante y comodo

El Domingo 4 de Diciembre
A las 3 en punto de la tarde

Procederemos a vender por orden y cuenta del Sr Dr D. Amancio Pardo, la famosa quinta arriba espresada, situada frente a la estacion y plaza del Caballito, al Sud-Oeste calle por medio con esplendidas propiedades de los Srs Zuberbuhler, Zorraquin, Niebuhr y don Ventura Fernandez; al Norte con el Banco Nacional, y por el otro costado con los Srs Josbery, Orma y Olivera.

Esta renombrada quinta esta situada en la parte mas elevada en 30 leguas a la redonda de la ciudad de Buenos Aires, razon por lo que en este paraje jamas ha habido un caso de epidemia.

El Parque Ingles, en cuyo centro se encuentra la casa, se compone de una superficie de 47,000 varas cuadradas, y la base de venta por toda la gran quinta es la suma de 281,250 m|c, en condiciones sumamente ventajosas para el comprador: el pago pueda hacerse una tercera parte al contado, y el resto en letras de renovacion si el Banco lo consiente.

En ella se encuentran plantas de un merito extraordinario por su belleza y rareza. Un gran parque ingles, la mas vasta peluza, una coleccion de pinos, tuyas, aromos la mas completa y hermosa que existe en el pais, y la fruta ha abquirido renombre.

El edificio perfectamente construido se compone de 5 grandes habitaciones comodas, ventiladas, de gran altura, con una galleria de vidrios de colores al Sud, de abrir y cerrar adoptable a todas las estaciones, y al Norte un magnifico vestibulo A estas habitaciones sigue un esplendido patio cercado de un pared y rejas de fierro altisimo, encuadrandolo de un lado y de otro cuatro habitaciones, cocina, letrina y todas construidas con buen material, maderas duras, ademas al lado de afuera hay tres habitaciones para quintero y sirvientes.

En una palabra, esto es necesario verse para formar juicios, por cuya razon, escusamos entrar en minuciosos detalles.

El jardin frutal es de lo mejor del pais, por la excelente calidad de su fruta, como asi mismo lo escojido de las legumbres.

La quinta esta a disposicion de los que quieran inspecionarla. La venta se realizara en 4 lotes o en uno solo, como lo pidan los interesados.

Para ver el plano, como para cualquier otro dato ocurrir a nuestra casa San Martin 51.

STATE OF IRELAND.

Cork, 24th Oct.

One hundred police, under Mr Hand, R.M., attended yesterday at Carrowinom, county Sligo, to effect seizures for rent on the estate of Mr Tuder, but no stock was to be found and the people had disappeared. The march was therefore fruitless. There is an average of three years' rent due. About 200 processes have been served in the district of Ballina for potato seed loans.

Mr W Watson, a tenant farmer at Baltinglass, on the estate of Sir E S Hutchinson, has received threatening notices warning him not to have any dealings with a bailiff on the estate. He disregarded the notices, and has had his hay strewed about his land in consequence, and other injuries were done to his property. A meeting of the Donnard and Donoughmore Protection Society was held on Thursday, the Rev. Mr O'Connor, the rector, in the chair. There was a large attendance, and a determination expressed not to submit to the tyranny sought to be imposed upon them. It was suggested that in case such outrages were repeated a night patrol of farmers should be established. Sympathy was expressed with Mr Watson, and a resolution passed to make every effort to prevent a renewal of the outrages. They also called upon the Government to re-establish a constabulary station in the Glen of Lnaal, and proferred a vote of thanks to Mr Fitzwilliam Hume Dick for his successful exertions on behalf of the loyal inhabitants of the district.

A meeting of magistrates of the county Kildare was held yesterday, on the requisition of the County Inspecter, to consider the propriety of making an increase in the police force. The magistrates resolved to apply for 40 additional constables. A meeting of farmers of the county Kildare, who are opposed to the stopping of the fox hunt, will be held on Saturday next in the Courthouse of Naas, and it is expected that they will pass a resolution in favour of retaining it. The majority of the people in the county Kildare were reported to be opposed to the manifesto of the Land League and the no-rent policy.

The following is a summary of the doings of Land Leaguers in this and adjoining counties. At Ballyonskill, county Kilkenny, a resolution was passed that the arrest of the leaders shall be an incentive to further exertions and sacrifices on the part of all true leaguers, and that any person paying his rent underhand or against the wishes of his fellow tenants should be 'Boycotted.' At Kilcullen a resolution was passed condemning the indifference and apathy with which some of the traders viewed the agitation, and declaring that only those who joined the League should be supported. At Castlejordan a meeting was held at which it was resolved not to pay any rent until the landlord, Mr J R Joly, granted an abatement of 25 per cent. and also on rents already received and to tenants who are threatened with eviction. At Baltinglass 42 children were enrolled Land Leaguers, and a resolution passed to deal exclusively with Land Leaguers and to have no intercourse with those who were opposed to their principles. The Dunlavin Ladies' Land League passed a resolution that any member whose wife, sister, or niece, refused to join was not worthy of their confidence. They discreetly refrained from including brothers or nephews in their condemnation. At Edenderry a resolution to deal only with Land Leaguers was passed. The ladies of Castledermot have resolved not to visit the exhibition of manufactures next year if any of the oppressors of the people had the least connexion with it or are invited to take any part in the opening ceremony, and to have no dealing with manufacturers who exhibit their goods if they do not comply with these conditions. At Eadistown Mr de Burgh was condemned for writing a letter on the subject of foxhunting, and he was advised to go to some other country where he could carry out his views. At Ballymore Eustace, a resolution was passed with enthusiasm, denouncing the 'base, bloody, and brutal' Whig Government led by the hypocritical coward and now unmasked enemy of the Irish race, Gladstone,' and pledging themselves to pay no rent until 'Ireland's noblest son and uncrowned king is released.' The Ladies' Land League at Rathdowney called on the tenant-farmers to pay no rent until the Coercion Act ceased and to withdraw their sons from the police, and each member pledged herself to report to the Secretary any Irish girl who so far forget herself as to receive the attentions of a policeman. The name of any so offending was to be struck off the roll, and she was to be boycotted. At Dunlavin one of the speakers at a recent meeting declared that if the landlords again attempted to plant the iron heel on the Irish peasantry they might fall by the bullet as thick as leaves on Vallambrosa. He asked them to remember what happened in Russia where the assassination of the Emperor taught an awful lesson. It showed that military and police were powerless to prevent deeds which they were justified in remembering were prompted by the wild swift justice of revenge. The Land League, he said, had commenced the right way to achieve the ultimate freedom of Ireland. At Graigue a member was expelled for saying that he only joined the League because it was a paying game. This was held to be disrespectful to the organization. Five arrests were made yesterday in Roscommon under the Protection Act. The first was a draper named Nord. He was cheered by a number of people, who were assembled at the market. Two other arrests were made at the door of the workhouse, and two since in the board room. The persons arrested were Mr Hayden, president of the local branch of the Land League, the chairman of the Town Commissioners, and proprietor of the *Roscommon Messenger*; Wm. Hanly, a farmer, one of the guardians, and president of the Carrocum branch; John Dolan, farmer, also a guardian, who was president of another branch, and Patrick Burke, publican, another guardian and town commissioner. They were driven in a carriage escorted by the police to the police barrack, amid much excitement and cheering on the part of the people attending the market. When the driver alighted at the door of his employer he rushed into the house to escape the fury of the mob, who then drove the horses away out of the town. They were stopped by some person, who turned them back again. The glass of the windows of the carriage was all broken. The owner, on going out, was struck with a stone on the back of his head. It was considered indiscreet to make the arrests on market day, as there is but a small party of police in the town. A crowd of countrymen remained for hours in front of the barrack, and stones were thrown at the police. The prisoners were removed by the 6 a.m. train.

DEATH
OF LADY ELLENBOROUGH.

A WONDERFUL ENGLISHWOMAN.

An exciting and romantic life came to a close at Damascus on the 12th of August, when the wife of the Sheikh-joel, a local celebrity known to all travellers, passed away at the ripe age of seventy-five. This Damascene lady once wore an English coronet, and came of the famous English race of Sir Kenelm Digby, a scion of which not long ago married the daughter of Mr Groesbeck, of Cincinnati. She was the only daughter of Admiral Sir Henry Digby, and was two years older than her brother, the present Lord Digby. When a girl of seventeen she married as his second wife the second Lord Ellenborough, afterwards known in English politics as 'the wild elephant,' who was made Earl of Ellenborough on his return from the Governorship-General of India in 1854. The marriage was an unhappy one from the first. One child was born to the ill-matched pair—a son—who died when but two years old, in 1830. In that same year London society was electrified by the elopement of Lady Ellenborough with Prince Felix Schwarzenberg, then a dashing young Austrian diplomat, who twenty years afterwards proved himself to be both a soldier and a statesman, and rescued the House of Hapsburg from the revolutionary abyss of 1848. Lord Ellenborough obtained a divorce from his wife by special act of Parliament, allowing her a large income. She continued to live abroad. A few years after her elopement with Prince Schwarzenberg she married in Bavaria the Baron von Vennigen. Him too she deserted, and then led a strange life of it 'between the Alps and the Mediterranean.' How many times she was married in Europe is not well ascertained, but about the year 1850 she went to the East. There she travelled from Palmyra to Damascus under the escort of the Sheikh Medj-joel, who for many years has monopolized the best travellers between those famous spots, and startled him on their arrival at Damascus with the information that she intended to marry him. The Sheikh took to flight and made for the desert, but the determined lady followed him, overtook him and married him duly according to Bedouin rites, there being no witnesses to the ceremony except his Arab companions. She purchased in his name a splendid house and garden in Damascus, where she has ever since resided during part of the year, spending several months annually in the desert in her husband's tent. Stormy as her earlier life had been, her latter days were calm and contented. Her last and most extraordinary marriage proved a happy one. In Damascus she became the idol of the poorer Mahometan residents, who found in her the kindest of friends and counsellors; and amid them she has died at last, respected and beloved, finding a much happier ending of her romance than her predecessor in Oriental experiences, Lady Hester Stanhope. Lady Ellenborough—or 'Lady Digby', as she called herself after her divorce—never became a Mahometan. On the contrary she was a regular attendant of late years at the English services of the Damascus Mission for the Conversion of the Jews. Mr W C Prime, of this city, gives an excellent account of her Eastern home in his 'Life in the Holy Land.'

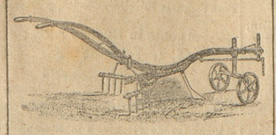
HOWARD'S CELEBRATED PLOUGHS

Howard's Small Ridging Plough

A small useful iron plough, fitted with a double mould board or earthing up body, and much used by maize and vegetable growers.

Weight ¾ cwt.

Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.

With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1½ cwt.
S B, fitted as above, weight 1¾ cwt.
B P, fitted as above, weight 2 cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each. (x)

CORNS—Alex. Ross's Chiropo speedily removes Corns. It turns them into a soft pulpy condition, that they are bodily removed.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy, a Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
